And Technology
Kharkiv National University
4 Freedom Square
Kharkiv, Ukraine

Subject: 50th anniversary

Dear Friends,

I would like to congratulate you on the 50th anniversary of Department of Physics and Technology. It is an important milestone in Kharkiv National University history and even bigger accomplishment in our lives. Many of my former classmates were born in 1962 and all of us were incredibly lucky to join the Kharkiv Fiztech family. This decision played a crucial role in our careers, taught us many valuable lessons and helped to grow professionally and personally.

I hope the next generation of students would consider the previous accomplishments as a starting point and do better. I would like to emphasize the value of hard work and continued education as the basic ingredients of success in life. Not every graduate becomes famous scientist, however, time spent at Kharkiv National University helped us to become better people.

Finally, I send my best wishes to all folks, who were associated with the department, and apologize for not attending the celebration.

Sincerely,

A handwritten signature in black ink that reads "B. Pritychenko". The signature is written in a cursive, flowing style.

Boris Pritychenko
Class of 1985
